Part One

Welcome to the webbot guru Clif High to explore the obscurity that is Antarctica. In this 3-part show we deal with everything some issues touched in Part 1: Why did Clif take interest in this mystery? What say web-bot about it? What happened there in the late 90's? Why was it promoted for tourism after that? What's the large magnetic anomaly under the ice? Why's all satellite images censored & manipulated? What did Russians find in Lake Vostok? Are there really hot zones? Was there a nuclear meltdown in the 70ies? Where was Atlantis? Was Admiral Byrd right? What say the Ancients? What happens if the ice melts? And learn how Earth grows...

Part Two

In part 2 we move through history with topics like: What's the Expanding Earth theory implications for Antarctica? Why is most ancient habitation zones submerged? Is Mars a dead planet? What say Salish & Jain about former civilizations? What's the Royal belief? Were humans incarcerated by ancient invaders at Antarctica? Was it frozen due to war? Is humanity a hybrid species? Were we once 600 billion people? Is the Sun cause to climate change & ice ages? Is Smithsonian destroying history? What did Nazis discover in New Swabia? What happens to polar expeditions? Who stole Clif's Antarctica data? And hear about his Giant pyramid images.

Part Three

In this crescendo closer Clif deals the final cards of the SP enigmas, incl. the 4 basic scenarios: Ancient Civ, Nazis, Aliens, & Hollow Earth. Some issues raised: What's his original info before blue chicken pollution? Why did polar scientists suddenly get ill? What's the weird energy radiation from SP to Hawaii? Is an ancient village uncovered? What power players visits & why? What say the Salish about sky people? Why was SP nuked in late 50ies? What's the origin to polar lights? Why are globalist corporations there? Why did U.K. battle over Falklands? Is UFO's from Inner Earth via polar holes? And hear what horrors the night vision goggles revealed...

Great Britain heat up 4 nukes aimed at Argentina. The lengths and measures the Empire will use to "protect " Antarctica. In 1982 Great Britain provoked by an act of war by the Argentinian Junta which ruled that country. When Argentina's military forces invaded the protectorate British Crown territory of The Falkland Islands. The island of south Georgia the Antarctic sentinel.

If you think that Great Britain sent a task force fleet with 2 aircraft carriers and the Atlantic Conveyor modified for VTOL Harrier jump jets, a brigade of 26,000 Commandos, Royal Marines, the Parachute regiment and the Gurkhas (to name a few) because they were concerned for some penguins welfare, think again.
