Eric and Hunter:

I think Hunter indicated that he is willing to transfer his interest of the BD to Eric for Hunter having 100 percent ownership of BHR. Hunter also indicated that is not going to make payment toward the 237k that Eric has put into the broker dealer.

Unclear to me what the intent is with the remaining interest in Eudora? 100 percent to hunter, or 75/25?

GM

Eric gets BD I gat everything else that's the deal and way more than fair

GM I also think a strict confidentiality/non disparagement clause is needed for you both, and a post-closing cooperation provision.
