Hey. Richard. I'm on phone with Dad and can't remember alarm code (house) and spare key to chain-bridge house.

Sorry for the delay as I'm at dinner. Alarm shouldn't be on but the code is [REDACTED]. The spare key is in a lock box on the spiral staircase that goes to the apartment above the garage. That code is [REDACTED] as well. Video attached.

Also need gate code and location of alarm pad when Hunt opens the door

Gate is [REDACTED]

Alarm pad is in the little office I use that's to the left when you walk in the front door
